

RESEARCH DAY: May 6, 2011

Please join Research Service on Friday, May 6, 2011, from 10-11:30am in the Portland Auditorium in celebration of National VA Research Week. Presentations will include discoveries PVAMC scientists have made and the impact the scientific community has on care provided at the VA nationwide.

The event will showcase:

James Henry, PhD

Topic: Tinnitus Research—Lessons Learned and Help for Veterans

Joseph Quinn, MD

Topic: Omega 3 Fatty Acids for Alzheimer's Disease: What Was Lost in Translation?

Michael Riscoe, PhD

Topic: Back to the Future for New Drugs to Combat Malaria

Suzanne Watnick, MD

Topic: Intensive vs. Conventional Renal Support in Acute Renal Failure

Kristine Wiren, PhD

Topic: Alcohol Abuse: Differences Between the Brains of Males and Females Reveal Distinct Biology During Withdrawal
